THE RALEIGH NEWS

VOL. XIV--NO. 14. RALEIGH, N. C., TUESDAY MORNING, SEPTEMBER 17, 1878. $5.00 PER ANNUM

Francis L. Cardoza, ex State Treasurer in South Carolina, is a first-class, clerk in the money-order division of the Sixth Auditor's office. After the installation of Governor Hampton in 1876 a joint committee of the South Carolina Legislature was appointed to investigate frauds upon the State. A. the result of this investigation a number of the thieving carpet-bag Republican State officers were indicted, and Cardoza, ex-Congressman Smalls and L. Cass Carpenter were convicted. Cardoza was a member of what was known as the State House Syndicate, composed of Patterson, Scott, Parker, Tomjinson, Neagle, Chamberlain, Kimptons and others, who were interested in securing the passage of a bill relating to the Greenville and Columbia Railroad Company by the State Legislature. This bill was for the purpose of authorizing a further issue of the bonds of the road and to give them a market value. The Legislative Committee on Frauds found that the passage of this measure was effected by bribery with money furnished by Kimpton. He paid for one-quarter share of the stock of the rail-road, worth $5,000, out of the State's money, and gave it to Cardoza for his services in sealing State bonds. Cardoza's expenses were also paid for loans obtained on the bonds of the State of South Carolina. Either the President or Secretary Sherman is responsible for Cadoza's appointment. The name of his endorser for a Federal office cannot be learned, but it was probably Senator Patterson. According to the record Cardoza should be serving his country in a penitentiary instead of the Treasury Department.

As Ben Butler was sauntering down a Boston street, the other day, gayly trolling a "Labor" carol, a low-browed, shaggy-headed, horny-handed son of toil, with a *dudheen* stuck jauntily in his hat-band, suddenly darted out of an alley, and, stealing stealthily up behind the General, slapped him on the back and said, loudly enough to be heard by passers-by, "How are ye, General? The top of the mornin' to yez!" In an instant a sudden rage thrilled through that haughty form; zigzag lightning darted from his eyes, he raised his quarter-staff, and ejaculating "Villain! greeneyed offspring of a lop-eared ton of soil, serf, hod-carrier, get thee gone; get thee gone, villain!" he brought the cudgel down on the back of his assailant, who, far from resenting the attack, turned immediately and grinning at the bystanders said: "Oh, bedad! do ye moind that now? An' isn't that a foine frind av the workin'man?" The crowd raised a shout of execration and would have torn the General to pieces had he not retired, crestfallen and feeling how he had betrayed himself.

A messenger freighted with glad tidings of mercy and relief has reached New Orleans in the shape of a cool, steady north wind. The effect of this welcome visitant's presence is already visible in a diminished death-rate; but even thus the mortuary roll is terrible to contemplate. No atmospheric change short of actual frost will stay the progress of the scourge. Poets love to sing of balmy tropical breezes, but humanity now prays for the quick advent of winter's pinching breath. Never was the garrison of leaguered city in sorer strait than are the decimated remnants of the population in New Orleans, Memphis, Vicksburg and other Southern centers.

The New York Times and Tribune are very indignant because a stone-cutter named Murch has been elected to Congress in Maine over Hale. There was a day when the hardy mechanics of the North met far different treatment at their hands. Things seem to be changed since they ran a rail-splitter for the Presidency and proudly founded their party on the "mud-sills" of society. Verily the party that set a Massachusetts cobbler and a Tennessee tailor to preside over the United States Senate must have undergone a strange revolution in its notions, that it should turn up its nose at a member of the ancient and honorable guild of stone-cutters.

Among the good Samaritans who have gone to the rescue of Memphis, in her sore distress, we observe honorable mention of Miss D. Murdoch. This lady was a sojourner at Shreveport when the plague broke out there in 1873, but, after recovering from a slight attack of the fever at the very inception of the epidemic, she devoted herself to nursing the sick, and there is many a survivor of that fearful scourge to whom her name is endeared. When the fever broke out in Memphis she went there from St. Louis and offered her services. Miss Murdoch is the sister of the Episcopal clergyman in Salisbury.

The coming of a new Governor General will produce one agreeable change among the Canadians if no other. By way of rendering themselves a pleasing, picturesque and home-like spectacle to this eminent Highlander, who is wedded to the daughter of the Queen, the regiments propose to don the kilted uniform. The English are said to be just as anxious to get into kilts as the Highland Scotsmen are; though one English member of the Royal Fusiliers opposed the change on the ground that the unaccustomed brevity of the pantaloons would give them all "colds in their 'eads."

The Western towns that have been outstripped by Chicago are making merry, as usual, over its bankruptcies. For several days before the bankrupt law ceased to be operative, the Register's fees amounted to $15,000 a day, the fee for each petitioner being $50. On the last day he received $20,000, which represented 400 bankrupts. St. Louis, as may be imagined, rejoices over this, saying she is beaten by four to one, and that the Chicagoan who is still solvent must feel magnificently solitary.

Majors W. T. Sutherlin and J. T. Morehead have been appointed to canvass several counties in North Carolina in behalf of the Dan River and Coalfield Railroad Company, and have consented to do so. They are booked for speeches at Leaksville on the 23d inst., and afterwards at Madison, Danbury, Dalton's, Yadkinsville, and other places.

"The Republican party, a few years ago," says Secretary Evarts, "held the politics of this country in the hollow of its hand." And the hollow of a dreadfully dirty hand it was, too, or the politics of this country might possibly have been held there still.

Blaine came within 30,000 of predicting the exact number of Greenback votes in Maine. He should let up on rhetoric till he works up in his arithmetic.

Up to Friday last there had been in New Orleans 1,865 deaths; at Memphis, 1,446; at Vicksburg, 481, and at Grenada, 277.

Grand Lodge I. O. O. F.

By Telegraph to the News.

BALTIMORE, September 16.—The Grand Lodge I. O. O. F. of the United States, convened to-day. 150 were present including two Past Grand Sires. The report of the Grand Sire says: "Whilst the annual returns exhibit an increase in Lodges and Encampments and in amount paid for relief over last year, they indicate for the first time since 1863 a falling off in membership and revenue. The amount of loss to the Order, in prosperous times, of members, for non-payment of dues, is a subject eminently worthy of the best consideration that we can give it, and whilst large accessions of new and untried material is constantly added to our numbers, we find it occasionally counterbalanced, especially so at the present time, by the loss of members, who through neglect or inability, are dropped or suspended for the above cause. The general returns give the following condition of the Order at present, as compared with the last annual report: Grand Lodges, 48; subordinate Lodges, 6,877; increase 199. Grand Encampments, 39; subordinate Encampments, 1,835; increase 29. Lodge initiations, 36,087; decrease, 4,559. Lodge members, 447,186; decrease, 8,939. Encampment members, 84,787; decrease, 2,998. Total relief, $1,705,266,71; increase, $15,781,09. Total revenue, $4,423,051.85; decrease, $66,820.61.

ROSE-TINTED TEETH.

New Kink Among Our Fashionable Belles.

N. Y. Mercury.

Japanese women color their teeth coal black, and the fashionable ladies of New York have now commenced dyeing theirs in a delicate rose-colored tint. A reporter of the Mercury having learned that a dentist on Madison avenue was engaged in gratifying this latest freak of New York fashion, interviewed him on the subject, when the following conversation ensued:

"You are engaged in coloring ladies' teeth light red, I understand," said the reporter. "What has caused this strange idea?" "I could not tell you that. I am ashamed of dabbling in this sort of business (and you mustn't mention my name); but my best female clients have called upon me for it, and of course I could not refuse them, although I explained to them the danger. Invariably the custom of coloring woman's teeth red comes, so far as I know, from China Only ladies of the highest distinction there indulge in it, and I believe it is a mark of the most aristocratic class. The lower classes of women there dye their teeth bright yellow or dark red. Who imported the fashion here I do not know; but a gentleman formerly engaged in business at Shanghai is selling the dyeing substance here. That substance is extremely expensive; so dear, in fact, that only ladies of wealth are able to purchase it."

"But what is the object of this dyeing process? It must make the teeth look repulsive." "Not exactly. Ladies who have irregular teeth look more attractive after the dye has been applied. They have to put another substance on their lips to make them look as pale as possible. You know that lip-coloring has been going on among women for many years past. Then came the enameling of the teeth, which was a precarious and most unsuccessful process. Besides, it ruined the teeth invariably, and there being arsenic in the enameling substance, it was quite dangerous to apply."

Japanese School Compositions.

Harper's Magazine.

Some of the first attempts of students at committing their ideas to paper through the medium of English, are somewhat amusing in one sense.

The following composition was duly read on the day for exercises:

"TOKIO.

"Tokio is very large city in the world; it contain about one million of people and one thousand streets. The men in Tokio is so many, but science men very seldomly apear comparatively, therefore civilized men is very little—men in Tokio is very uneconomist. Its most principal streets are Ginza Nihonbashi, Kojimachi, Asakisa, Dakurocho, and others, fire in Tokio is very common, their houses is destroyed by it two times a year. I think will not destroyed if ther houses buid [built] from stone, but ther mind do not to reach it, there is uneconomist as I said above. I like to write story of the city but would have no time to write. I will write to you very much afterward."

We have adopted the plan of having pupils write sentences only, till they can do so in a comprehensive manner. In this they usually succeed somewhat better, and yet some of their efforts in this direction not only lack in clearness, but have a touch of the ludicrous as well, as the following examples will show: "Remorsing his foolish and having ashamed it he was forgave." "A gentleman divided his property into his four sons at the point of death." "There was a pleasant wife whose name was Masa; she was justice and obedience; she did not so humorous as another woman, and assisted of cultivation of her husband in day, and in night she endeavored to amuse her old mother's tedium." "She could done what she hath."

Doubtless our crude efforts to speak and write their vernacular afford them as much if not more cause for merriment. A missionary, not the earliest in the field, not long since attended the services of a colleague, and at the closing was asked to dismiss the congregation. He complied, but unwittingly went through the formula for baptism instead of the benediction, not discovering his mistake till too late to correct it.

The Colored Vote.

Norfolk Virginian.

We publish in another column, a letter from Rev. H. Garland White, a colored clergyman, of Halifax, N. C., which we commend to our colored readers, as full of sound sense and good doctrine. For thirteen years the colored people of North Carolina and Virginia have followed the will-of-the-wisps of Radicalism, and where have they led them? Invariably deeper and deeper in the mire! Where are the 40 acres and the mule? Where the rights of the colored brother, and where is the money he deposited in the Freedman's Bank? If he wants aid, to whom does he apply? If he wants employment, from whom does he get it? Has not every dollar that he has earned come from his old masters? Has not every dollar that he has even lost been stolen by his Republican friends?

No prophet ever spoke truer words to his people than does our correspondent when he says to the colored race: "The carpet-baggers who band us together as a flock of sheep against our native white fellow-citizens, for the sole purpose of securing office for themselves, have no further use for us, after the election is over, and you may go back to the Democrat's farm, or go in the woods, for all they care."

Glass Ball Shooting

This sport has become very popular in the United States and England, having to a large extent taken the place of pigeon shooting. The balls are thrown in the air from a trap either singly or else two are thrown at once. It will be introduced at the Fair. Sportsmen will be pleased to know of this. A fine breech-loading shot gun is to be given as a prize.

THE OUTLOOK IN SUCKERDOM.

A Democratic Congressional Gain an Assured Fact.

Washington Post.

Hon. R. W. Townshend, Democratic member of Congress from the Nineteenth Illinois District, arrived in Washington last evening, and was promptly interviewed by the Post. Said he:

"If Indiana and Ohio go Democratic this Fall Illinois will certainly follow suit. I haven't a particle of doubt of it, and all our people in Illinois feel just as confident as I do."

"Do you mean that the Democrats will carry the legislature?"

"I mean we will carry the legislature and elect the State ticket, too. This upheaval in Maine is going to help us in the West a great deal."

"And the Greenbackers?"

"There is no danger of the Greenback movement in the West absorbing the Democratic party if the Greenbackers are satisfied with the Democratic position on the currency. The Democratic element which went into the Greenback movement a year or two ago in our State has returned, and is now supporting the Democratic nominees, while the Republican element which left its party will stand by the National ticket. I find that to be the case all through my section of the State. The legislature will certainly have a majority in opposition to the Republican party, and I believe the Democrats will be able to elect the next Senator. In a number of districts the Greenbackers have indorsed the Democratic nominees."

"How will the next Congressional delegation stand?"

"I think we will gain at least two districts. In the Bloomington district Stevenson, the Democratic candidate, has been indorsed by the Greenbackers, and they are supporting him heartily. Then we will carry the Chicago district, now represented by Aldrich. Our friends in Chicago count confidently upon that. Springer will be re-elected, beyond a doubt, so will Morrison and Sparks, and in the Cairo district Judge Allen will be elected. I consider my district perfectly safe."

"Wasn't there some dissatisfaction in Sparks' district."

"Yes, but is was only temporary. The differences have been harmonized, and Sparks will get an increased majority."

"If the Republicans do succeed in carrying the legislature, will they send Logan to the Senate?"

"I think not; Oglesby's friends think Logan has acted unfairly in making this race after having lost his own election, and this has engendered antagonisms that cannot be easily harmonized. I believe Logan will have a majority of the Republican members of the legislature, but Oglesby's friends will be strong enough to force the election of some new man."

"What is thought of the news from Maine out West?"

"Everybody looks upon it as opening the way to future Democratic successes, both this year and in 1880. It may stimulate the Republicans to renewed exertions, and force them to draw heavily on the National banks for money, but that will not avail them. They have found money a powerful agent in the past, but I tell you, the people out West cannot be moved by money any longer. They are determined to have a change of Administration, and all the money of the National banks cannot prevent it."

NEWS ITEMS.

Cremation is seriously contemplated in lieu of ordinary sepulture at Memphis. The bodies accumulate faster than they can be buried, and some plan must be adopted to prevent the dreadful effects of unburied or hastily buried bodies. The mode of sepulture is altogether a matter of education and taste, and the practice of cremation is no more inhuman in itself than burial, however it may appear at first sight to those whom custom has educated to regard burial as the only proper disposition to make of the dead.

In view of the virtuous indignation of the Republican press at the failure of the Democratic majority in the House of Representatives to elect Gen. Shields as door-keeper, it may be interesting to quote the veteran's own opinion on the subject. He said in a lecture just delivered at Chicago: "I should not "have accepted the place if it had been "give to me by every vote, Republican "and Democratic in the House. I would "rather to have gone back to Missouri "and have plowed with two oxen; and "I am the poorest plowman in the State. "The other proposition to put me on "the retired list, suited me better. I "would like to be on the retired list "during a time of peace. If war broke "out I should want to retire into that." The effort of the Democrats to make provision for "the hero of two wars" was defeated by the Republican Senate.

Scoundrels Foiled.

In the Hillsboro jail are confined the Chapel Hill burglars. They are shackled to the floor of the cell. On Sunday the jailer entered, to give them food, locking the door after him, and bearing the keys in his hand. No sooner had he gotten fairly in the cell than the villains, who had by some means slipped from their shackles, jumped at him and attemped to wrest the keys from his grasp. Furiously fighting, he freed himself from their grasp, and with great presence of mind jumped up to the narrow window, and catching one of the bars, shouted loudly for help. It came, fortunately, in the person of some gentlemen who were passing by, who hearing the shouts soon learned the cause, and told the jailer to drop the keys outside He did so. The friends in need at once picked them up, and going to the front, unlocked the door, drew their pistols and went to the cell, where they cowed the would-be jail breakers into instant and complete submission. The jailer was not in the least hurt, but will ever remember his narrow escape from the hands of these desperadoes.

J. H. MILLS, Supt.

An Appeal for Help.

Gen W R Cox yesterday received the following telegram, from one of his old command. It will be seen that the place named has just been attacked by the dreaded fever:

GRAND JUNCTION, TENN., September 15.

Gen. W. R. Cox:—

Get me all the money you can. We have forty-two cases of yellow fever, and only one doctor. I am a member of your old regiment.

EDWARD BRETON,
Mayor.

Grand Junction is a point at which several railways come together, leading to Memphis, and it is very unfortunate that the disease has found its habitant there, as it will affect the transportation of supplies. It is to be hoped that the next funds for the infected district may be sent to Grand Junction since so much depends upon a speedy suppression of the disease there.

Gone, But Not Forever.

Mr. C. Weikel, the man whose motto is "Give 'em Fits," has gone North. But let his customers take heart, for he will soon return, bringing with him the latest designs and finest goods, such as he ever offers his patrons. The most elegant fall and winter styles of clothing, far lower than ever before, for cash. Weikel sensibly thinks he can do better for the people than any Northern slop-shops and their New York sprouts. No one who knows Weikel can doubt this.

The Congressional Contest!

The next session of the 45th Congress in all probability will pass a law that all men having a fine taste and are fond of one of the luxuries of life, will go to the Capitol Cigar Store, opposite the Postoffice, where they will find cigars and tobacco of various brands at the lowest prices. Cigarettes, cigarette papers, and smokers' articles, together with polite attention to all these patrons. We have the sole agency for the "Sitting Bull" smoking tobacco, manufactured by E. H. Pogue, Hillsboro, N. C., of which we are making large sales, being superior to any other smoking tobacco. Sold in quantities at manufacturer's prices.

J. M. MENDEL & Co., Agts.

Cotton.

The receipts of cotton in Raleigh are rapidly increasing, and their growth is due to the energy and judgment exercised by commission merchants. Messrs. A. C. Sanders & Co. have been in the commission business, and are known as prompt and reliable commission merchants, who do only a commission business. Their charges are as low as any.

It Might Have Been.

When taking a retrospection of our past lives, how often does conscience whisper to broken spirits and wounded hearts the sad, sad words, "It might have been?" Thus it may be with the sufferer who endures the agonies of hemorrhoids, or piles, and heeds not the counsel to try Barham's Infallible Pile Cure, which is warranted to speedily and permanently cure this distressing disease. Manufactured by the Barham Pile Cure Co., Durham, N C. 1w

New Store--New Goods.

Having opened a grocery and general merchandise store in the Adams building, No. 2 Martin street, I would announce to my old customers and the public generally, that I shall keep in stock a large and varied selection of dry goods, groceries, boots, shoes, &c., &c. Buying at cash prices, as I do, I can at all times compete with the market and afford my customers all the advantages offered to the trade. I shall be glad to give strict personal attention to all business in my line. W. E. Dupree, Raleigh, N. C., Martin street, Adams building.

Cotton!

Having devoted special attention to the sale of cotton for the past 10 years, we are prepared to sell for parties to advantage, and will make liberal cash advances to those wishing to store. We are also prepared to furnish cotton growers and ginners with Bagging, Ties and Twine, at bottom prices. Correspondence solicited by M. T. Norris & Co., Cotton and Commission merchants, Raleigh, N. C.

Wm. Woollcott has just opened a complete stock of ladies, gents, and childrens boots and shoes and rubbers, and his prices are as low as the lowest. It will pay you to examine his stock before purchasing.

The Standard of Excellence.

Bread is the staff of life, and is used in every household. Yet how few have the judgment to make such a selection of flour as will make bread white, pure, tempting. Cheapness in this staple food is nearly always coupled with impurity, and brands without name or reputation are passed off upon the unsuspecting as of superior quality. The idea in purchasing this article is to get it at a place where its quality is guaranteed. This is done, and it may be had in any quantity at the store of W. H. Dodd, corner Wilmington and Martin streets.

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a druggist but will tell you of its wonderful cures. You can buy a sample bottle for ten cents. Three doses will relieve you. aug14daw1yeow

To Carpenters and Builders.

If you are needing anything in the way of edge tools or builders hardware, of any kind, we would advise you to call at J. C. Brewster's hardware house, where you can find a splendid stock of goods in this line, and at prices to suit the scarcity of money. All tools sold are fully warranted. He will contract for roofing at prices which will enable you to put in your bids (where there is any tin work to be done) lower than ever, giving you an opportunity to use tin in place of shingles.

He uses nothing except the best material. J. C. BREWSTER,

Forewarned. Forearmed.

In view of the recent elections in Oregon, Vermont and Maine, the policy of the Radical leaders towards the South has become more undisguised and pronounced. The result of those elections, by which they have sustained a loss of four Congressmen, has convinced them that their only present possible hope of getting a majority in the next House of Representatives lies in a division of the Southern Democracy, by attempting to array the Greenbackers against it. Responsible for all the financial evils of the past fifteen years, allied with the capitalists and monopolists of the North and East, and on that account defeated in the elections referred to, a change has come over the spirit of their dreams, and their efforts are now to be directed to producing the ridiculous impression that the Democratic party is not to be relied on to obtain the monetary reforms for which the people have so unmistakably expressed their desire and determination. Acting, doubtless, upon suggestions from headquarters, the Radical Executive Committee in this District, which nominated Josiah Turner last week, did so, among other reasons, upon the ground "that he would advocate measures that would make money more pentiful than it is now," and Moses A. Bledsoe, who expects to rip up that endorsement and get one himself at the hands of a Radical Convention on the first of October, "out Herods Herod" in his inflation theories, and, when confronted with the record of his party, evades any personal responsibility that might attac hto his new associations by the silly subterfuge that that record was made up before *he* joined the party! If so, and if he is sincere or conscientious in his views on the Currency, should not the Radical record of legislation in the interest of contraction, corporate wealth and the oligarchs, have kept him out of the party? He is at least *an accessory after the fact*. When a man lies down with the dogs, as an old Spanish proverb says, he will get up with the fleas, and Mr. Bledsoe cannot shake off the consequences of his new recumbency and affiliation.

If there could be any one thing more brazen than another,—if there could be an exhibition of effrontery and impudence more sublime than another,—it is the attempt of the Republican leaders to hide or evade their own responsibility for the financial mischief and misrule of the past and to impugn the record of the Democratic party. We trust that we have heretofore sufficiently shown, by the citation of dates, facts and figures, that the Democracy of the country have fought the battles of the people against the monopolists and the money-power from the first. There is *no* conflict between the Greenback men and the Democracy. The Democratic party has opposed—the Republican party has *passed*—all the measures which have multiplied the wants and increased the sufferings of the people.

It is only necessary, in order to show the utter heartlessness and duplicity of the Radical party in their new departure, to point to their uniform record of spoliation and oppression and to the recent utterances and speeches of President Hayes, Secretary Sherman, Garfield, Hale and others. The *object* of the strategy is, as we have intimated, so plain and bald, that "the wayfaring man, though a fool," can see it. The possession of the next House of Representatives, by any means, by whatever tactics, involves the sole earthly chance of the Radicals for retaining their hold upon the Executive offices of the nation. Their expectation and plan is that, if they can get control of the House, they can run Grant for the Presidency in 1880, and, failing to elect him by the people, can count him in som how,—between one branch of Congress and the Army and Navy.

Here, then, the Democrats of the South have the danger plainly laid before them, and it remains to be seen whether, by division or dissension among themselves, or by indifference and inactivity, they will walk into the snare which has been prepared for their ruin. Our salvation from the monster evils of the past and present is in UNITY alone. Our deliverance and our future hopes lie in the stout resolve of every friend of REFORM to act in conjunction with the great and beneficent *Democratic party*, which has fought the fight of popular rights of retrenchment, a sound currency and civil liberty, through the clash and smoke of battle for the last fifteen years.

It will not do to go backward now. We have only *started* the ball of Reform. No great political regeneration has been carried to success except under the patronage and support of a great and dominant party. It is necessary that the different departments, the legislative and executive, should be in accord. Now that the Senate will certainly be Democratic on the 4th of March next, this great movement of reform will have overcome one other barrier. And when the people shall again, in solemn assize, select their Chief Magistrate, the last obstacle will be broken down. When the people and both Houses of Congress, and the President and the Executive Departments all are in accord, the work of retrenchment will move steadily and bravely forward. Its permanent success can only be achieved by placing the executive and legislative departments of the Government under the control of the same political organization,—in the hands of the party that has initiated it and brought it to its present proximity to consummation!

The Congressional Districts.

In all of the Congressional Districts of the State the campaign has now fully and fairly opened, and, from the tone and temper of our State exchanges, as well as from our own private sources of information, we are enabled, at the beginning of a new week of the canvass, to take the following outlook:

In the First District, Maj. Yeates has commenced a vigorous and brilliant canvass. He has two Republican opponents in the persons of the regular nominee, Mr. J. J. Martin, who presided at the Convention which nominated the negro, J. H. Collins, for Solicitor of this Judicial District, and of J. B. Respass, Esq., independent, who, according to the Tarboro *Southerner*, wrote to Martin concerning his course in the Radical District nominating Convention: "You have taken the advantage, acted unmannerly, and played the part of a scoundrel and must take the consequences." Maj. Yeates has few superiors as a popular debater, and we are assured that he is surpassing himself in the excellence of his efforts and arousing enthusiasm wherever he goes. He will be ably seconded in his efforts by numerous gallant gentlemen of the District, than which none in the State can boast a better-informed or more effective and eloquent array of speakers.

In the Second District, O'Hara, the West Indian Radical negro nominee, is opposed by Messrs. B. F. Long, of Warren, W. H. Kitchen, of Halifax, and Cicero Green, of Craven, with a probability that Gov. Brogden may yet announce himself as a candidate. Consolidated opposition to O'Hara might possibly succeed in defeating him, and we hope yet to see it accomplished.

In the Third District, the Hon. A. M. Waddell has, thus far, no opposition worthy of the name. Though he has not yet entered regularly upon a canvass of the District, he has made several addresses on financial and commercial matters in response to requests from portions of his constituents. We regard his recent speech in Wilmington, on the Currency, as one of the most exhaustive able and satisfactory that we have seen on the subject from any source. It is a mistake to suppose, as some people do, that Col. Waddell's attainments are more of a literary character than in the line of political research and information. He *adds* to rare culture a thorough acquaintance with governmental affairs and public duties, and has native capabilities and resources that make him equal to any emergency.

Of our own District, it is unnecessary to say more in this connection than we are in the habit of saying every day. We regard Mr. Davis' election as assured.

In the Fifth District, the contest, if we are not very much mistaken, will soon be narrowed down between Gen. Scales and Tourgee. We have too much respect for Col. Winston to suppose, for a moment, that he will imperil the success of the Democratic party by remaining a candidate. We believe that, in any event, Gen. Scales will be elected, but, as between himself and the carpet-bagger, that splendid North Carolina gentleman and patriot would beat Tourgee twice as many votes as there are miles between any given point in Ohio and Greensboro.

In the Sixth District, Col. Steele has only prospective opposition, faint and feeble, through the manipulation and agency of W. M. Coleman, of Cabarrus, Holden's Attorney General.

In the Seventh District, we have reason to believe, all discordant elements are reconciled, and Col. Armfield is left with only nominal Radical opposition in the person of J. M. Brower, Senator elect from Surry.

Gen. Vance, in the Eighth District, is still without opposition from any source.

All over the field, therefore, the prospect is every way encouraging. The Democracy of North Carolina have but to remain true and firm, and to work unitedly and energetically for a few weeks longer, and we shall maintain our strength and usefulness unbroken and intact. But any abatement of work or diminution of energy may be fatal. That fact cannot be too strongly or vividly impressed upon our minds. Endeavor and success go hand in hand!

As alliteration is the order of the day, it may be well to state that the Proxies' Pulverizer and Party Purifier,—*alias* Badger's Bantling, Young's Yoke-fellow, Hargrove's Horny-handed toiler, and Ellison's Elixir,—*alias* Josiah Turner,—is in a shy way. That proposed Convention on the 1st of October, to nominate some body else, is hard on *him* and the bossing proxies. It is understood, however, that the bosses will fight for their endorsee when the Convention assembles, and won't give up their darling "old Jo," as long as there's a shot in the locker.

Bledsoe advocates "soft money" on the stump very vigorously, and denounces demonetization, the resumption act, etc., as infamous crimes. When told that all this is so, but that the Republican party is responsible for all this pernicious legislation, his reply is: "Oh! but none of it has been done since *I* became a Republican." As his formal adhesion to the party only dates back two or three weeks, the cool effrontery of the declaration is both amusing and amazing. He takes Republicanism with a qualification; or rather he pleads the "infancy" law to get rid of the debts.

"Here we go up, up, up,
And here we go down, down, down."

So it is with Turner and the bossing proxies. One day endorsed by a gathering of the faithful, and the next day whistled down the wind! One day "scoring one" on Bledsoe, and the next day Bledsoe "scoring" several on them! By the time that convocation gathers on the 1st of October, the game will be played out, and Jo Davis will have all the tricks.

"Hurrah!" said the *National* of this city, when it heard that Turner had been endorsed by the Radical Committee. This reminds us of the Frenchman, ignorant of the Angle-Saxon language, who cried "hurrah" in a fight, when he meant to holler "enough," the signal of surrender. The result was a continued and terrible pommeling.

Fancy the feelings of Josiah, away down in the old fields of Nash, where he is at present wandering, when he hears that the endorsing proxies are themselves just now sadly needing and yearning for endorsement.

Boutwell says that the result in Maine will imperil very much Republican prospects in Massachusetts, and that he will be agreeably disappointed if the Democrats do not gain in the Congressional delegation.

Blaine, in his speech at Ogdensburg, New York, the other day, instructed his audience in agriculture merely. He ought to have told them what nice beets have been harvested in Maine this fall.

Mr. Davis speaks in Pittsboro to-day and will be met by the "*infant* phenomenon" of Republicanism, Mr. Bledsoe. We hope to have a full account of the discussion.

Bledsoe's expressed contempt for the action of the proxies and substitutes is said to be withering. He proposes to read them out of the party, soon.

VEGETINE.

Cured Her.

BELLEVUE, KY.

DR. H. F. STEVENS:—
Dear Sir,—I must state that your Vegetine deserves to be called a valuable blood purifier, renovator and invigorator of the whole system. My wife suffered for a length of time with a Scrofula Sore on the leg. She took several bottles of Vegetine. The results were surprising: it cured her, while all the former remedies failed to give satisfaction.

Respectfully,
T. F. TRICK'

I know the above to be true.

VEGETINE.—For eradicating all impurities of the blood from the system, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

PURIFIES THE BLOOD.

BOSTON, MASS., Jan. 13, 1877.

MR. H R. STEVENS:
Dear Sir,—I have been using Vegetine for some time with the greatest satisfaction, and can highly recommend it as a great cleanser and purifier of the blood
J. L. HANAFORD,
Pastor of Egleston-square M. E. Church,

Nervousness, and all derangements of the nervous system, are usually connected with a diseased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is accomplished by taking Vegetine, It is a nerve medicine, and possesses a controlling power over the nervous system.

Vegetine

WILL CURE RHEUMATISM.

CINCINNATI, April 9, 1877.

MR. H. R. STEVENS:—
Dear Sir,—I have used your medicine, the Vegetine, for Rheumatism with great success, and believe it to be the best medicine for that complaint that there is. I also know it is a good blood purifier, and at the present time am using it as the best spring medicine that I know of. I take great pleasure in recommending the Vegetine to my friends.
H. MUND, Charles Street.

Thousands will bear testimony (and do it voluntarily), that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities, or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer."

Vegetine

FOR DYSPEPSIA.

ASHLEY, ILL., Jan. 12, 1878.

H. R. STEVENS:
Dear Sir,—I have been using Vegetine for Dyspepsia, and find more relief from it than all the other medicines I ever used. There is nothing like it for Dyspepsia.
MRS. M. E. FOWLKS.

I am personally acquainted with Mrs. Fowlks, and can certify that the above statement is true.

Thousands Speak.—Vegetine is acknowledged and recommended by physicians and apothecaries to be the best purifier and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

CIRCULAR SAW MILL.

LEVER FEED CUTTER

Hege's Improved Circular Saw Mill, is no new and untried saw mill, but is one that is well and favorably known in many sections, and wherever it is introduced it is fast superceding all others. It is simple in construction, yet reliable in operation, and is sold for less than any other first class saw mill. Send for descriptive circular

Lever Feed Cutter,

Is something entirely new and novel in the feed cutter line. With this cutter the feed is cut off diagonally, instead of square across, as is the case with all other cutters, at the same time our cutter has a draw cut, acting exactly on the same principle that a knife is used in cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

Price reduced to $8.00. Send for circular. Liberal discount to agents. No goods consigned. Manufactured by the Salem Agricultural Works, Salem N. C.

Weather Probabilities.

WASHINGTON, D. C., Sept. 16.

For the South Atlantic and Gulf States, Tennessee and Ohio valley warmer south and east winds stationary and falling barometer; partly cloudy and hazy weather.

LOCAL BRIEFS.

——Prayers for the sufferers were offered in all the churches on Sunday.

——The minstrels made night melodious with their beautiful songs last evenin.g

——A drummer's license was issued yesterday to J. P. Hartman & Son, Baltimore.

——Gov. Vance yesterday made requisition on the Governor of Virginia for a negro now in jail at Portsmouth.

——There will be a regular meeting of Raleigh Chapter, No. 10, this evening at 7:30 o'clock. Prompt attendance is desired.

——The Governor yesterday appointed Col. Wm. L. Smith a County Commissioner of New Hanover, to fill a vacancy in the Board.

——People now brace up and have some style about them, thanks to the fresh and cool weather. Adieu to the limp shirt collar and slouchy duster.

——The Victor Fire Company was out last evening, practicing. A run of three hundred yards was made in one minute, down Fayetteville street.

——The second Grand Conclave of the Kappa Sigma Fraternity, will be held in Richmond, Va., during the State Fair, in rooms at the Exchange Hotel.

——The Old North State Minstrels and Silver Cornet Band, will soon appear at one of the theatres, for the purpose of raising funds for the yellow fever sufferers.

——The railroads are crowded with work just now, the warehousemen are ever busy, while the drayman is lord of all he surveys, as he impels his bony steed along the streets.

——Over a hundred bales of cotton were sold in Charlotte Saturday and about sixty the day before. This is something almost unheard of at this season of the year; in fact it would seem that the season is about three weeks in advance of any known in several years.

——Last Sunday was one day when the churches were filled, sinners were cornered for once and had no excuse for non-attendance. Nobody was sick, for the physicians and newspapers all spoke of the utter absence of disease, and the weather was almost too perfect for this earth.

——The business streets once again look lively. Boxes and barrels are piled high, and the counters display their treasures. The faces of the ladies seem brighter, as they look at the new goods, and think of how they will ransack the stores for five cents worth of braid.

Died.

Rosa, daughter of Jacob and Jennie Jackson, died yesterday, aged 4 years and 7 months. May her soul rest in peace.

Important Meeting.

The Wake County Democratic Executive Committee will meet in this city October 5th, when important business is to be transacted.

Extra Term of Court.

Gov. Vance has ordered an extra term of the Superior Court of Randolph county, to begin on Monday, December 2nd, and continue until the docket is cleared. Judge Kerr will preside.

Accident,

Mrs. W. J. Holleman, wife of the Mayor of Apex, who has been for some years a cripple, fell to the ground on Saturday, and the fall broke both legs above the knee.

Accident at Chapel Hill.

On Saturday as Mr. Eugene L Harris was driving a buggy containing a lady friend, the horse ran away, throwing both out, and the wheels passed over them, fortunately without injury to either.

Military Gossip.

The citizens of Greenville have organized a company, to which has been given the name "Jarvis Light Infantry." The officers are—Captain, Louis C. Latham; 1st. Lieutenant, A. L. Blow; 2nd. Lt. B. H. Peebles; Jr., 2nd. Lt. W. H. Harrington.

A Concord Darkey off for Memphis.

Doc. Shankle, a well known colored man of Concord, this week applied by telegraph for the requisite documents to convey him over the railroads to Memphis, where he volunteers his services to nurse the sick.

Mayor's Court,

Justice W. D. Haywood yesterday tried Weston Perry, colored, who was arrested for being drunk and disorderly on Sunday. He was fined five dollars and costs.

Also Peter Plummer, for disorderly conduct. This citizen was dismissed on payment of costs.

Sickness in the County.

Mr. R.H. Johns, of St. Mary's township, lost a little child by croup, a day or so ago. Several others are sick with the same disease in that neighborhood.

Mr. Lewis Pool, of Johnston, near the Wake line, lies dangerously ill.

Call for Clothing.

Not only do the yellow fever sufferers need pecuniary aid, but they are also sadly in want of clothing. Those good people who may have cast off garments of any sort are asked to send them. The Southern Express Company generously offers to deliver all such, free of charge. Carry any old clothes you may wish to give for this purpose, to Mr. Bryan, at the Express office. He will look after their transmission.

Now is the Time.

The funding of old city scrip has been resumed. All holders of such as is fundable can get in exchange therefor new bonds, bearing interest. The clerk's office is in the 3rd floor of the market house, and there that official is ready to make the aforementioned exchange.

A Dark Affair.

Before Justice J. R. O'Neil appeared yesterday George Armstrong and Maria Black, who desired to be made one. The accomodating Justice quickly did this. The courthouse boys crowded around, and while two signed the certificate the third kissed the bride. The entire party at once adjourned to a lunch stand in the market and partook of a square meal.

Poor George.

To the horror of church goers, ladies many of them, old George Washington appeared on Sunday morning guiltless of garments, save a battered beaver. The costume of a Georgia major was full in comparison. As the janitor of the building was dreamily dozing in the soft air, on a bench, one of the unterrified stole softly up and decorated the before uncovered cranium of the late lamented G. W. He looked more like the Father of his country than usual.

Seven Springs.

The "Seven Springs Iron and Alum Mass," is a compound ferruginous preparation, procured from the mineral waters of the celebrated "Seven Springs," situated in Washington county, Va., and manufactured by Messrs. Landrum and Litchfield, of Abingdon, Va. Its medical properties are tonic, alterative, diuretic and antiperiodic. It is no more a nostrum, patent or proprietary medicine than castor oil, bi-carbonate soda, or congress water, consequently there should be no prejudice in the minds of physicians in prescribing it. Mr. G. V. Litchfield, of Abingdon, Va., one of the proprietors, is in the city, and leaves to-day for Greensboro. The Iron and Alum Mass is everywhere spoken of as an invaluable medicine.

For the Sufferers.

The colored people of this city sent yesterday, by express, $193.35 to the fever sufferers, This sum is the proceeds of the dime parties held on Friday and Saturday evenings. The colored people here are ever ready to do a charitable deed and this shows to what an extent they carry their good works. With this sum goes ten thousand times its value in good feelings for those to whom its blessings of relief may come. Raleigh may proudly, not boastingly, point to what she has done for the stricken ones, and yet say that the grand total of over $2,500, contributed here, does not reach the limit of her pecuniary ability. Of the colored people all may say, they have done their part. All honor to them for their kindness,

A Scared Clerk.

A night or so since, as the night clerk at the Yarborough was intently perusing his favorite work, Kant's Philosophy, to him entered a burly stranger. The incomer seemed rather inebriated, but after some conversation, asked for a drink. The clerk informed him that the bar was closed. He then leaned over the desk and told the clerk that he must have some whisky, as he was just from Vicksburg, and felt the fever coming on. As if he had been suddenly galvanized into life, the frightened clerk gave one bound for the hall door, opened it and ran to Dr. Blacknall's room. He shouted out that a man with yellow fever was in the house. The host at once came out and soon saw who the thirsty citizen was. Determined to be even with the clerk for waking him, Dr. B. told him the house must be fumigated, and that he had better hang over some smoke himself. So the clerk, under the directions of the doctor, went into the back yard, with a grossof sulphur matches. He ignited these, and sat over them, covering himself with the folds of a large thick blanket, under which he let the smoke gather. In a moment or two wreaths of smoke came from under his collar, and floated in the air. After some minutes of this sort of thing, the big-hearted physician told him he need now have no fear, so he went back to his post, a happier man. The gentleman who gave him the freight was a friend of Dr. B., from Western N. C.

The Noble Nurses of the Southern Cities.

Rev. E. R. Rich, rector of the Church of the Good Shepherd, chose for his text Sunday morning, the stirring exhortation, "Be ye Followers of Christ," and the text, in itself a jewel rare, could not have been placed in a more appropriate and beautiful setting than Mr. Rich's sermon. As examples of true and patient followers he cited those, who for love of the dear Master linger in the plague-stricken cities of this sunny Southern land, to aid the suffering, soothe the dying and lay the dead away in their last earthly resting places; noble, whole-souled persons, going from house to house with patient unwearying love and hopefulness. The earnest tones of the minister roused the sympathy of his hearers, and not a sentence of his beautiful tribute to those self-sacrificing, Christ-serving followers of the cross, but found an echo in the hearts of his little flock of listening sheep.

Broke His Arm.

Yesterday afternoon, while a son of Mr. W. G Upchurch was playing with some of his juvenile companions, he fell and broke his arm.

Personal.

Henry M. Stanley, the justly famous explorer of Africa, was weighed a few days since at the World's Exposition in Paris, upon a Fairbanks' standard scale. His weight was found to be 163½ pounds, or 32 pounds more than when he left the Dark Continent. The three years of exposure and suffering he has experienced are manifest in his appearance. He is very gray, and has a wan and almost haggard look, but is now rapidly recovering his usual health and vigor. *

On account of removal and change of bnsiness I will sell my large stock of boots and shoes at prime cost for cash. I offer shoes cheaper than they have ever been sold at Raleigh. Call and examine.

Prompt Reform of Bodily Evils.

The prompt reform of those bodily evils, enfeebled digestion, incomplete assimilation inactivity of the liver, kidneys and bladder, as well as of the nervous symptoms which these ailments are especially prone to beget, is always accomplished by the use of Hostetter's Stomach Bitters, a medicine accredited by physicians, pronounced pure by analysis, and eminently wholesome and agreeable. Surely such a restorative is preferable to unpalatable and indigestible mineral drugs and unsanctioned nostrums. The nation at large assuredly thinks so, judging by the unprecedented demand for the article from Maine to the Pacific, a demand now supplemented by immense orders for it received from tropical America, Mexico, the British and Spanish Colonial possessions, and elsewhere. Both at home and abroad it is recognized as a standard remedy and preventive, the decisiveness of its effects recommending it everywhere.

HOME REMEDY.

THE MOST WONDERFUL DISCOVERY OF THE AGE!

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. it is everywhere giving perfect satisfaction. While my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood, and probably for other diseases.

FAYETTEVILLE, N, C., Aug. 12, 1878.

MRS. JOE PERSON,

Dear Madam, I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the Doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine appeared to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this. rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years, and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Toeic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

JOHN BUIE, Box 141, Fayetteville, N. C.

For my personal reliability, I refer, by permission to Rt. Rev. Thos. Atkinson, D. D., North Carolina; Geo. A. Foote, M. D., Warren, Co.; Hons. J. J. Davis and C. M. Cooke, Franklin Co.

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands unrivaled; we challenge the world to produce better puregan more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterated and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."
